About Me

Passionate Computer Science Engineering student eager to turn ideas into impactful software solutions. Strong problem-solver, team player, and continuous learner in the tech space. I thrive in collaborative environments and continuously seek to expand my technical knowledge and skills.

Skills

- **Programming Languages:** C, C++, Python, JavaScript, Java

- **DSA & Competitive Programming:** 2★(star) CodeChef | Global Rank ~30k India Rank ~28k https://www.codechef.com/users/nsr_777

- **Web Development:** FullStack, React.js (HackerRank Verified), HTML, CSS, Tailwind

- **Database:** MySQL, SQL, MongoDB

- **Soft Skills:** Problem-Solving, Team Collaboration

Education

Higher Secondary Certificate
Periwinkle college   2023-2024

Completed Higher Secondary Certificate (HSC) in Science, with a focus on Physics, Chemistry, and Mathematics. Gained strong analytical and problem-solving skills, providing a solid foundation for pursuing further studies in engineering and technology.

Bachelor of Technology
ISBM,Pune   2024-2028

Pursuing a Bachelor of Technology in Computer Engineering, specializing in software and hardware systems. Proficient in full-stack development, with strong skills in algorithms, computer architecture, and embedded systems. Actively applying expertise through hands-on projects and tech initiatives.

Project

Product Development
Budget Tracker   2025

Developed an Automated Finance Manager to track expenses, manage budgets, and generate financial reports. Implemented user-friendly features to streamline personal finance management.

Hackathon TechFest , ISBM Pune
Finance Intelligent Management Website   2025

Developed a web application to track product sales, purchase costs, and business expenses, with automated profit/loss calculations and dynamic bar chart visualization. Our team secured 1st rank in a hackathon for this project.

Website Development
Pizza Delivery Website   2025

https://pizzato-mania.vercel.app

Developed a pizza delivery website with real-time order tracking and customizable pizza options. Built using React.js, Node.js, Express.js, and MongoDB, with Razorpay integration for secure payments. Focused on enhancing user experience and streamlining delivery operations.

GitHub
https://github.com/NITESH777RAJPUT   2025

Actively contributed to and published multiple GitHub repositories showcasing proficiency in Node.js, React.js, Express.js, HTML, CSS, Tailwind CSS, JavaScript, and Python. Gained hands-on full-stack experience, including backend development, frontend development, API integration, payment gateways, real-time data handling, and collaborative version control for building scalable web applications.

Internship Experience:

Completed 1-month web development internships at Oasis Infobyte (July 2025) and CodSoft (September 2025), gaining hands-on experience in frontend and backend development, responsive UI design, and real-world web development practices.
